INDEPENDENT AUDITOR'S REPORT

To the President and Board of Trustees Fountaindale Public Library District Bolingbrook, Illinois

We have audited the accompanying financial statements of governmental activities, each major fund, and the aggregate remaining fund information of the Fountaindale Public Library District, Illinois (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fountaindale Public Library District, as of June 30, 2020, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fountaindale Public Library District's basic financial statements. The combining fund financial statements and supplementary information are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining fund financial statements, supplementary information, and statistical section are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated in all material respects in relation to the financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

As management of the Fountaindale Public Library District (District), we offer readers of the District's statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the District's Financial Statements beginning on page 3.

FINANCIAL HIGHLIGHTS

- The District's total net position increased from \$20,802,373 to \$23,686,749, an increase of \$2,884,376 or 13.9%. Of this amount, \$4,995,383 (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- The increase in net position of \$2,884,376 was a result of government-wide revenues totaling \$12,152,107 and government-wide expenses totaling \$9,267,731.
- At June 30, 2020, the District's governmental funds reported combined ending fund balances of \$28,212,815, an increase of \$1,071,757 in comparison with the prior year.

Using the Financial Section of this Annual Report

The focus of the financial statements is on both the District as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the District's accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The focus of the Statement of Net Position presents information on all of the District's assets and liabilities and deferred inflows, with the difference reported as net position. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences).

The government-wide financial statements (see pages 3 - 5) describe functions of the District that are principally supported by taxes and charges for services revenues.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements to be more familiar. The focus of the presentation is on major funds rather than fund types. A fund is a grouping of

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are in one category: governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Library maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and Special Reserve Fund, all of which are considered major funds. Data from the other seven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual budget for its general fund and for nonmajor funds for Audit, Liability Insurance, Illinois Municipal Retirement Fund, Social Security, Equipping and Maintenance, and Capital Projects . A budgetary comparison schedule has been provided elsewhere in this report to demonstrate compliance with the budget. The basic governmental fund financial statements are on pages 6 through 9, and each of the nonmajor governmental funds can be found on pages 44 through 51 of this report.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the information provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 10 through 33 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligations, District's retiree benefit plan, and budgetary comparison schedules for major funds. This information can be found on pages 34 through 43 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$23,686,749 June 30, 2020.

Fountaindale Public Library District's Net Position at Year End

	Governmental Activites				
	FY 2020	FY 2019			
Current Assets	\$ 34,108,267	\$ 32,922,742			
Capital Assets	25,341,535	25,375,689			
Total Assets	59,449,802	58,298,431			
Deferred Outflows of Resources	3,266,618	2,891,079			
Total Assets and Deferred Outflows of Resources	\$ 62,716,420	\$ 61,189,510			
Current Liabilities	\$ 2,842,511	\$ 2,963,635			
Noncurrent Liabilities	27,691,074	31,840,449			
Total Liabilities	30,533,585	34,804,084			
Deferred Inflows of Resources	8,496,086	5,583,053			
Total Liabilities and Deferred Inflows of Resources	39,029,671	40,387,137			
Net Position					
Net Investment in Capital Assets	(2,228,329)	(4,047,707)			
Restricted	20,919,695	20,440,182			
Unrestricted	4,995,383	4,409,898			
Total Net Position	23,686,749	20,802,373			
Total Liabilities, Deferred Inflows of					
Resources, and Net Position	\$ 62,716,420	\$ 61,189,510			

A portion of the District's net position (\$2,228,329) reflects investment in capital assets (e.g., land, buildings, and vehicles and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Additionally, \$20,919,695 of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$4,995,383 represents unrestricted net position that may be used to meet the District's ongoing obligations to citizens and creditors.

The District's net position increased by \$2,884,376,431 during the year ended June 30, 2020.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

Fountaindale Public Library District's Change in Net Position

	Governmental Activites			
	FY 2020			FY 2019
Revenues		_		·
Program Revenues				
Charges for Services	\$	58,297	\$	73,164
Grants and Contributions		95,224		84,604
General Revenues

Interest		4.68%		4.96%
Miscellaneous		0.04%		1.70%
Total Income	\$ 12.	.152.107	\$	12.307.615

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

Below are the percentages of expenditures by category in relation to total expenditures.

Expenditures	by	Category

_		FY 2020		FY 2019		
Culture and Recreation						
Personnel		25.20%		21.90%		
Contractual Services		3.75%		2.79%		
Supplies & Utilities		2.07%		3.64%		
Insurance		0.41%		0.37%		
Library Materials		4.50%		4.59%		
State Grant & Misc		0.65%		0.63%		
Capital Outlay		3.54%		1.04%		
Debt Service		59.87%		65.05%		
Total Expenditures	\$	19,519,164	\$	22,333,063		

Total revenues decreased \$155,508 or 1.26%. Property taxes increased \$94,243 or 0.84% from \$11,182,830 to \$11,277,073. Replacement taxes increased \$12,339 or 9.46% from \$130,381 to \$142,720.

Total expenditures decreased \$2,813,899 or 12.60%. Personnel services increased \$29,468 or 0.60%. Debt service decreased \$2,841,693 or 19.56%.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unrestricted, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

At June 30, 2020 the District's governmental funds reported combined ending fund balances of \$28,212,815, which is an increase of \$1,071,757 or 3.95% from the prior year.

The General Fund is the chief operating fund of the District. At June 30, 2020, unrestricted, unassigned fund balance of the General Fund was \$6,865,297. The fund balance of the General Fund increased by \$715,633 or 11.635 during the year ended June 30, 2020.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year ended June 30, 2020, there were no amendments to the budget of the General Fund. Significant differences between the final budget and the actual revenues and expenditures are summarized as follows:

- The difference between the estimated revenues and the actual revenues was \$310,384 (favorable).
- The difference between the estimated expenditures and the actual expenditures was \$3,557,666 (favorable).

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – The District's investment in capital assets for its governmental activities as of June 30, 2020 amount to \$25,341,535 (net of accumulated depreciation). This investment in capital assets includes land, buildings, and furniture, fixtures, and equipment.

The total decrease in the District's investment in capital assets for the year ended June 30, 2020 was \$34,154.

Fountaindale Public Library District's Capital Assets (Net of Depreciation)

	 Governmental Activities				
	6/30/2020		6/30/2019		
Land	\$ 470,665	\$	470,665		
Building and Improvements	23,943,135		24,351,081		
Vehicles	439,385		118,040		
Furniture and Equipment	 488,350		435,903		
Total	\$ 25,341,535	\$	25,375,689		

Significant additions were made to each category of capital assets, except for land. Renovations were made to the building, computer equipment and furniture were added, and a new vehicle was purchased. Depreciation expense exceeded new additions by \$34,154.

Additional information on the District's capital assets can be found in Note 4 on page 18 of this report.

Long-Term Debt – At June 30, 2020, the District had outstanding debt of \$26,345,000. The net decrease in long-term debt was \$2,995,000.

Fountaindale Public Library District's Long-Term Debt

	Balance			Balance
	6/30/2019	Additions	Reductions	6/30/2020
General Obliation Bonds	\$ 29,340,000	\$ 7,290,000	\$ 10,285,000	\$ 26,345,000

Additional information on the District's long-term debt can be found in Note 6 on pages 19 - 21 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District is faced with a similar economic environment as many of the other library districts are faced with. The District's elected and appointed officials considered many factors when setting the fiscal year 2021 budget, including anticipated costs for services, economy, and tax rates. The equalized assessed valuation (EAV) for the District for 2019 is \$2,162,326,042. That represents an increase in EAV of \$52,438,443 over the prior year's EAV.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2020

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the Board of Trustees, Fountaindale Public Library District, 300 W Briarcliff Rd, Bolingbrook, IL 60440.

CHANGES IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ 2,884,376

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Fountaindale Public Library District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

a. Reporting Entity

The District primarily serves the District of Bolingbrook in Will and DuPage Counties, Illinois, with the library located in Bolingbrook. The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS) governed by an elected Board of Trustees (the Board). These financial statements present the District's reporting entity as required by GAAP. The District is considered to be a primary government since the Board is separately elected and the District is fiscally independent.

Based on the criteria of GASB Statement No 61, The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34, the District does not have any component units.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary. The District reports only governmental funds.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of restricted, committed, or assigned funds (special revenue funds), the funds restricted, committed, or assigned for the acquisition or construction of capital assets (capital projects funds), the funds restricted, committed, or assigned for the servicing of general long-term debt (debt service funds) and management of funds held in trust that can be used for library services (permanent fund). The general fund is used to account for all activities of the District not accounted for in some other fund.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statements of net position and the statement of activities) report information on all of the activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those accounted for in another fund.

Debt Service Fund, a debt service fund, is used to account for the accumulation of funds for the payment of principal and interest on general long-term debt.

Special Reserve Fund, a capital projects fund, is used to account for the costs of capital as the Board designates. Funding is generally from excess fund transfers from the General Fund.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. All other revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes, interest revenue, and charges for services are all considered to be susceptible to accrual and recognized as revenues of the current fiscal period. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The District reports unavailable/deferred revenue and unearned revenue on its financial statements. Unearned/deferred revenues arise when a potential revenue does not meet both the measurable and available or year intended to finance criteria for recognition in the current period. Deferred revenues also arise when resources are received by the government before it has a legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both the revenue recognition criteria are met, or government has a legal claim to the resources. unavailable/unearned/deferred revenue is removed from the financial statements and revenue is recognized.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Cash and Investments

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the Library's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

f. Prepaid Item/Expenses

Prepaids are valued at cost, which approximates market. The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

g. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value as of the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. All capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	20-40
Furniture, fixtures and equipment	7

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Compensated Absences

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

i. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld form the actual debt proceeds received, are reported as expenditures.

j. Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources(expense)/inflow of resources (revenue) until that future time.

k. Interfund Transactions

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. Committed fund balance is constrained by formal actions of the District's Board, which is considered the District's highest level of decision making authority. Formal actions include ordinances approved by the Board. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's director. Any residual fund balance of the General Fund is reported as unassigned. Deficit fund balances in any other governmental funds are also reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned.

The various Special Revenue Funds supported by property taxes are restricted due to the restricted revenue streams of the fund balance. These funds also target no less than three months of operating expenditures be included in unassigned fund balance for fiscal sustainability. Other funds are restricted due to the nature of the contributions to the fund.

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. None of the net position is restricted as a result of enabling legislation adopted by the District. Net investment in capital assets is the book value of the capital assets less outstanding principal balances of debt issued to construct or acquire the capital assets.

m. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditure/expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

2. DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the statement of net position as "cash and investments."

Permitted Deposits and Investments – Statutes authorize the District to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, insured credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, Certain External Investment Pools and Pool Participants, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio.

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. To guard against credit risk for deposits with financial institutions, the District's investment policy requires that deposits with financial institutions in excess of FDIC be collateralized with collateral of at least 110% of the deposits at institution held by an independent third party in the name of the District.

At June 30, 2020, the carrying amount of the District's deposits totaled \$28,205,253, and the bank balances totaled \$28,209,626. Additionally, at yearend, the District has \$134,587 invested in the Illinois Funds.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in the possession of an outside party. To limit its exposure, the District's investment policy requires that deposit with financial institutions in excess of FDIC be collateralized with collateral held by an independent third party in the name of the District. At year-end, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Illinois Funds is not subject to custodial credit risk.

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by investing in primarily short-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio. However, investment purchases mirror daily cash flow needs. Consequently, there is no limit attached to the maturity dates of the investment purchases as a means of managing the District's exposure to fair value losses arising from increasing interest rates.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The District's investment policy does not mitigate credit risk. At year-end, the District's investments in the Illinois Funds were rated AAAm by Standard & Poor's.

Concentration of credit risk is the risk that the District has a high percentage of its investments invested in one type of investment. The District's investment policy does not mitigate concentration of credit risk. However, at year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

3. RECEIVABLES – TAXES

Property taxes for 2019 attach as an enforceable lien on January 1, 2019, on property values assessed as of the same date. Taxes are levied by December 31 of the subsequent fiscal year (by passage of a Tax Ordinance). Tax bills are prepared by the County and are collected in two installments in April and September. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 2% of the tax levy, to reflect actual collection experience.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

4. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 was as follows:

	Beginning			Ending

Culture and Recreation \$ 790,655

5. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the District's employees. These risks are provided for through the District's participation in the Library Insurance Management and Risk Control Cooperative (LIMRiCC). LIMRiCC is a governmental joint venture whose members are Illinois libraries. LIMRiCC manages and funds first party property losses, third party liability claims, boiler and machinery claims, workers' compensation claims, and public official liability claims of its members. The District's participation is limited to unemployment compensation claims only. The District's payments to LIMRiCC are displayed in the financial statements as expenditures in the appropriate fund. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in the current fiscal prior or any of the past three years.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

6. LONG-TERM DEBT

a. General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

	Balances July 1	Additions	Reductions	Balances June 30	Current Portion
General Obligation Library Building Bonds of 2008 (\$10,000,000) due in annual installments of \$800,000 to \$2,960,000 plus interest at 4.20% to 5.00% through February 1, 2020	\$ 800,000	\$ -	\$ 800,000	\$ -	\$ -

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

6. LONG-TERM DEBT (Continued)

c. Legal Debt Margin

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 2.875% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

Assessed Valuation - 2019	\$ 2,162,326,042
Legal Debt Limit - 2.875% of Assessed Value	\$ 62,166,874
Amount of Debt Applicable to Limit	 26,345,000
Legal Debt Margin	\$ 35,821,874

7. INDIVIDUAL FUND DISCLOSURES

a. Interfund Balances

Due from/to other funds at June 30, 2020 consist of the following:

Receivable	Payable	Amount Due		
General Fund	Nonmajor Permanent Fund	\$	17,950	

The balance reflected above relates to interest income payable to the General Fund from the Working Cash Fund.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

7. INDIVIDUAL FUND DISCLOSURES (Continued)

b. Interfund Transfers

Interfund transfers during the year ended June 30, 2020 consist of the following:

Fund	Transfer In		Transfer Out		
General Fund	\$	17,950	\$	655,000	
Debt Service Fund		655,000		-	
Nonmajor Permanent Fund		-		17,950	
TOTAL	\$	672,950	\$	672,950	

The purpose of the transfer was to help fund the payment of general obligation debt service from the general fund into the debt service fund. The transfer will not be repaid.

8. CONTINGENT LIABILITIES

a. Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures, which may be disallowed by the grantor cannot be determined at this time. The District does not expect to have any such liability if any were to arise it would be immaterial.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

9. DEFINED BENEFIT PENSION PLAN

The District's contributes to a defined benefit pension plan: the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system. The benefits, benefit levels, employee contributions, and employer contributions for all plans are governed by Illinois Complied Statutes (ILCS) and can only be amended by the Illinois General Assembly. IMRF's plan does not issue a separate report for the plan. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Illinois Municipal Retirement Fund

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2019, IMRF membership consisted of:

Retirees and beneficiaries	101
Inactive, non-retired members	96
Active plan members	90
TOTAL	287

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during one consecutive 48 moths within the last 10 year of IMRF services divided by 48.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

9. DEFINED BENEFIT PENSION PLAN (Continued)

Illinois Municipal Retirement Fund (Continued)

Benefits Provided (Continued)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during any consecutive 96 months within the last 10 years of IMRF service, divided by 96.

Contributions

The District employees participating in IMRF are required to contribute 4.5% of their annual eligible covered salary. The member rate is established by state statute. The District is required to contribute at an actuarially determined rate. The employer rate for calendar year 2019 was 8.59% of payroll. The District's contribution requirements are established and may be amended by the IMRF Board of Trustees.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

Asset valuation method Assets

Net Pension

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that The District's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

9. DEFINED BENEFIT PENSION PLAN (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate (continued)

Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of The District calculated using the discount rate of 7.25% as well as what The District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

			Curr	ent Discount		
	19	% Decrease		Rate	1	% Increase
	(6.25%)		(7.25%)		(8.25%)	
Net pension liability (asset)	\$	3,770,307	\$	925,295	\$	(1,416,166)

10. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

In addition to providing the pension benefits described, the District provides postemployment health care benefits (OPEB) for all permanent full-time general employees of the District through a single-employer defined benefit plan administered by the District. Article 11 of the State Compiled Statues grants the authority to establish and amend the benefit terms and financing requirements to the Board. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided

The Retiree Benefits Plan provides healthcare benefits for retirees and their dependents. The benefit terms provide for the individual to pay the entire cost of health insurance premiums for non-Medicare-eligible retirees and supplemental health insurance premiums for Medicare-eligible retirees.

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

Plan Membership

At June 30, 2020, the following were covered by the benefit terms:

Actuarial Assumptions

The District's total OPEB liability was measured as of June 30, 2020 and was determined by an actuarial valuation as of that date.

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.75%
Salary increases 2.75%
Discount Rate 3.50%

Healthcare Cost Trend Rates The initial trend rate is based on the 2018 Segal Health

Plan Cost Trend Survey. The grading period and ultimate trend rates selected fall within a generally accepted range.

Retirees' Share of Benefit-Related Costs 100% of projected health insurance premium for retirees

The discount rate was based on a combination of the expected long-term rate of return on plan investments and the municipal bond rate.

Mortality rates follow the Sex Distinct Raw Rates as developed in the RP-2014 Study, with blue collar adjustments. These rates are improved generationally using MP-2016 improvement rates.

NOTES TO FINANCIAL STATEMENTS

Total Unassigned		6,937,629	

12. RESTRICTED NET POSITION

Restricted net position represents net position whose use is subject to constraints that are either: (1) externally imposed by creditors, grantors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.

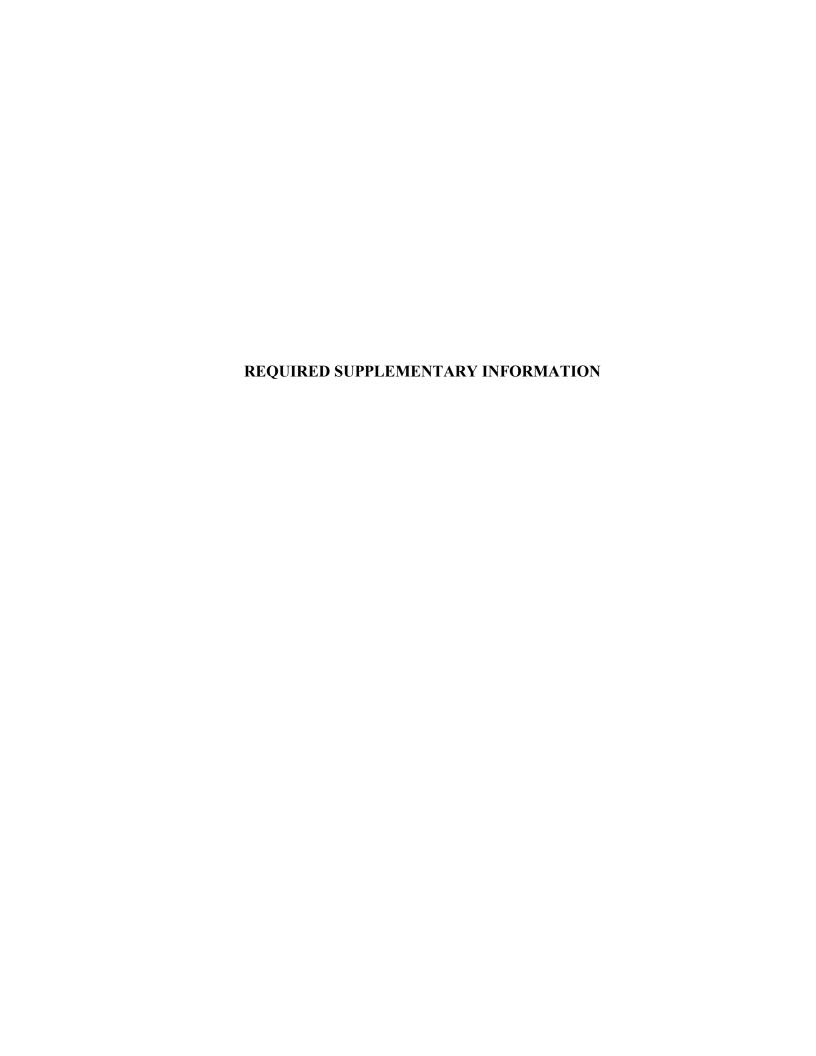

NOTES TO FINANCIAL STATEMENTS

June 30, 2020

13. SUBSEQUENT EVENTS

Management evaluated subsequent events through September 30, 2020, the date the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and financial position of the District could be materially adversely affected. The extent to which the coronavirus (or any other disease or epidemic) impacts business activity or investment results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others. No adjustments have been made to these financial statements as a result of this uncertainty.

SCHEDULE OF CHANGES IN THE EMPLOYER'S TOTAL OPEB LIABILITY AND RELATED RATIOS - RETIREE BENEFIT PLAN

June 30, 2020

	2020	2019	2018
Total OPEB Liability			
Service cost	\$ 8,641	\$ 10,674	\$ 10,276
Interest	17,727	17,699	17,298
Changes of benefit terms	-	-	-
Differences between expected			
and actual experience	27,238	-	-
Changes of assumptions	88,294	22,835	-
Benefit payments, including refunds			
of member contributions	(18,573)	(18,494)	(15,889)
Net Change in Total OPEB Liability	123,327	32,714	11,685
Total OPEB Liability - Beginning	 499,304	 466,590	 454,905
Total OPEB Liability - Ending	\$ 622,631	\$ 499,304	\$ 466,590
Covered Payroll	\$ -	\$ -	\$ -
Total OPEB Liability as a Percentage of Covered Payroll	0.00%	0.00%	0.00%

Notes:

This schedule is intended to show information for ten years. Information for additional years will be displayed as it becomes available.

Changes in Benefit Terms: There was no change in the retirees' share of health insurance premiums.

Changes in Assumptions: Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The following are the discount rates used in each period:

Fiscal Year	PPO	HSA	НМО
2020	7.10%	7.18%	6.48%
2021	6.80%	6.87%	6.27%
2022	6.50%	6.56%	6.06%
2023	6.20%	6.24%	5.84%
2024	5.90%	5.93%	5.63%
2025	5.60%	5.62%	5.42%
2026	5.30%	5.31%	5.21%
2027	5.00%	5.00%	5.00%
2028	5.00%	5.00%	5.00%
Ultimate	5.00%	5.00%	5.00%

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

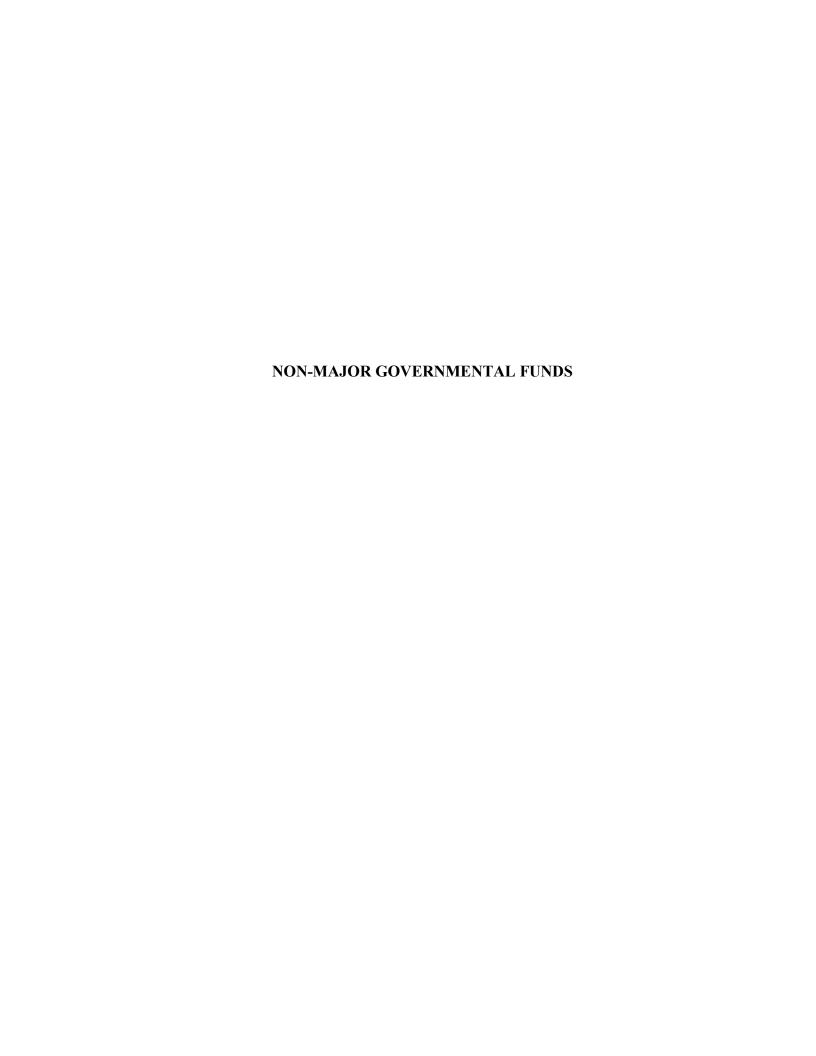

June 30, 2020

LEGAL COMPLIANCE AND ACCOUNTABILITY

Budgets

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted (at the fund level) for all funds except the Debt Service Fund, Special Reserve Fund, and Working Cash Fund. All annual appropriations lapse at fiscal year end.

All departments of the District submit requests for appropriations to the Library Director so that a budget may be prepared. The budget is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year. The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget. The Library Director is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year no amendments were made to the originally filed budget.
