

KINDERCARE'S LEARNING JOURNEY

Can you believe all the strides your child has made so far? It's incredible. And, there's so much more they'll do. **JOIN US AT PARENT TEACHER CONFERENCES** to see where they've been and hear about all the amazing development that's ahead for your little learner. No matter where they are on their learning journey, we're here to support them (and you) every step of the way.

TRANSITIONAL KINDERGARTEN

(FOR KIDS WHO ARE READY FOR THE NEXT STEP,
BUT MISSED THE KINDERGARTEN CUT-OFF DATE)

An engineer at 5 years old? You bet. See their natural curiosity come to life as they design new block machines, construct model dinosaurs and see how fast a toy race car can go. Your child will amaze you with all they can do, create, become.

KINDERGARTEN (5-6 YEARS OLD)

This class is full of little scientists who describe, collect, organize, and make sense of the world around them. Listen as they hypothesize about people, places, things, and even brainstorm as a group!

KinderCare.com

DISCOVERY PRESCHOOL (2-3 YEARS OLD)

Why? Why, why, why? We're here to guide sprouting conversations and answer your 2-year-old's curious (and endless) questions on their quest for answers.

PRESCHOOL (3-4 YEARS OLD)

From pointing out the "S" in a stop sign or the number "3" on the bus, we love sparking these discoveries and seeing them happen in the most unexpected places and ways.

TODDLER (12-24 MONTHS)

Toddlers are all about moving and exploring! We love their energy and activity, helping their vocabularies grow, seeing all that can be expressed through scribbles, and watching sweet friendships develop.

INFANT (0-12 MONTHS)

Even before first words or first steps, so much happens in your baby's first year. The words spoken or read to them, the songs we sing or read to them are all the building blocks for your baby's brain development.

PREKINDERGARTEN (4-5 YEARS OLD)

From doodles to recognizable letters, we love seeing your budding novelist begin their journaling adventure. Your prekindergartener will begin recording thoughts, ideas, and experiences through pictures and writing.

READY FOR SCHOOL! (AND ALREADY EXCELLING)

The stats are in - our kids come out on top! On average, our kindergarteners score **4 MONTHS AHEAD** of their peers in school. And the longer they're a KinderCare Kid, **THE BETTER THEY PERFORM!**

Results based on the TerraNova® Third Edition assessment of over 1,600 children in March 2016.
