

First Friends Christian Preschool

305 E. Boughton
Bolingbrook

Welcome to
First Friends!

What would you see if
you dropped into an
average day at our
preschool?

Two busy teachers and
20 busy kids!

There's so much to do!

Good Morning!
Doors open
at 9:00 am.

When we come in, we say
hello to our teachers and
friends!

We hang up our jackets and
put our backpacks away. We
get right to work at a table
activity that helps us
recognize the letters in our
names and put the letters in
order.

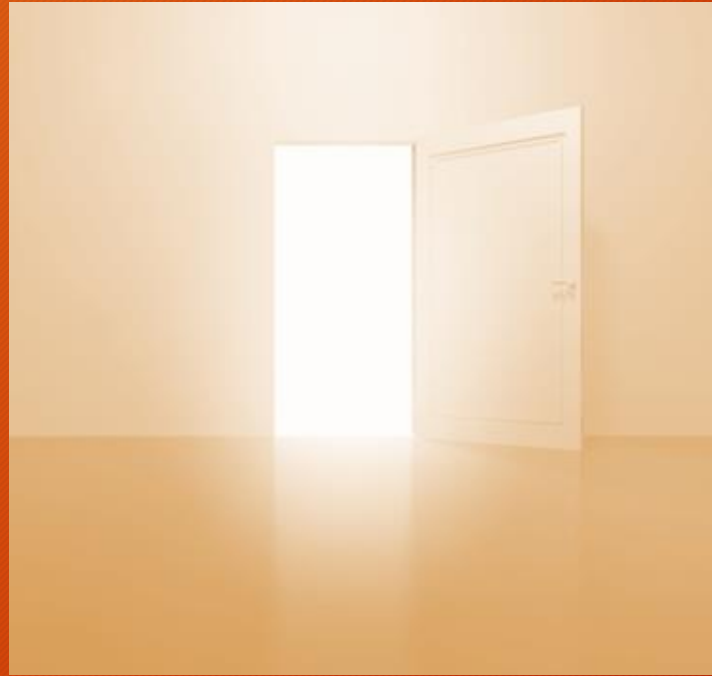

Table Work Time

We have many choices, like puzzles, and games.

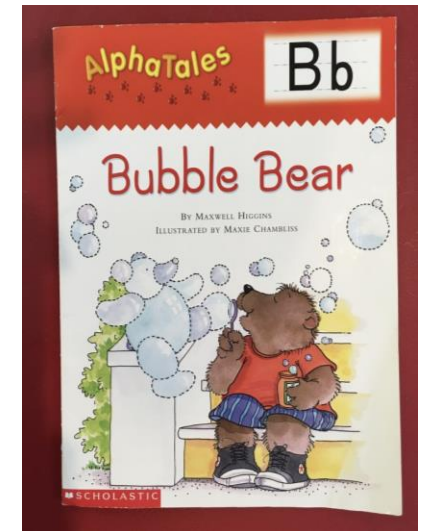

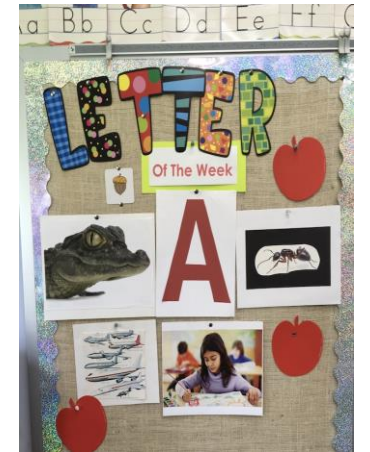

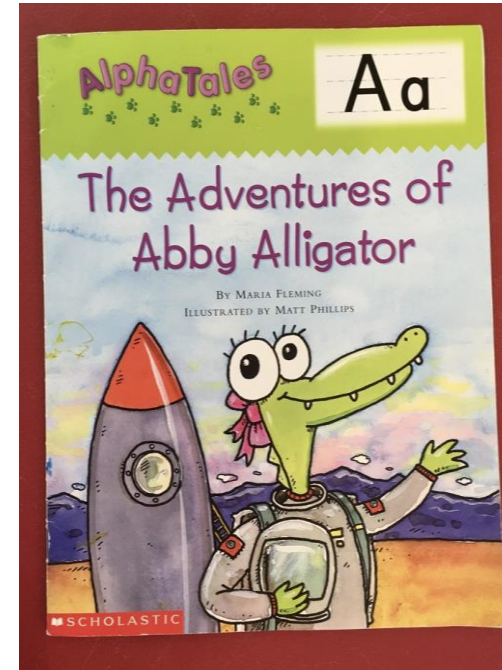

Circle Time

We gather together to talk and sing, read books, learn about the letter of the week, play musical instruments, play games and dance.

Letter of the Week

There's a new letter to learn about every week. We read a funny story and look at pictures of things that begin with that letter.

Outside Play

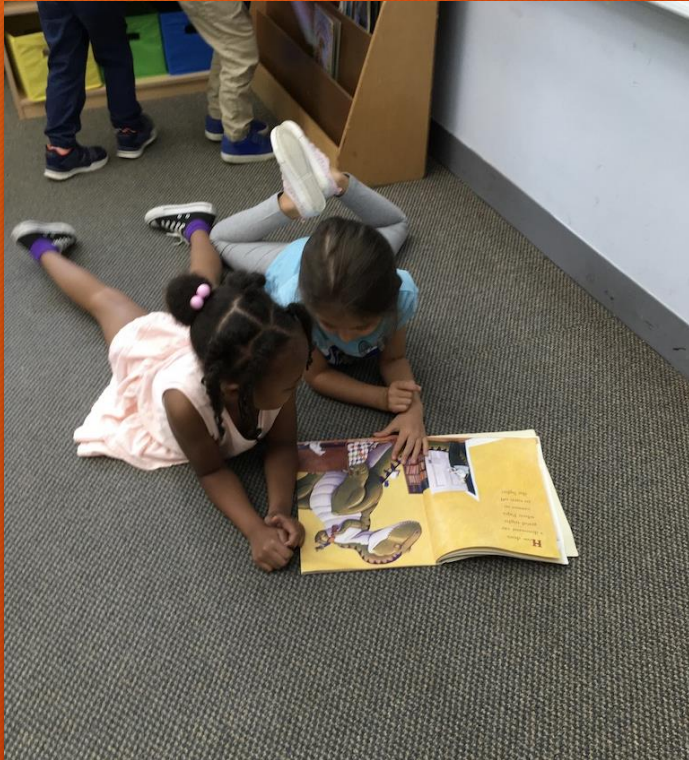

Then we line up and go out to our playground every day.

Snack Time

We have fun talking and laughing with our friends while we have juice and crackers.

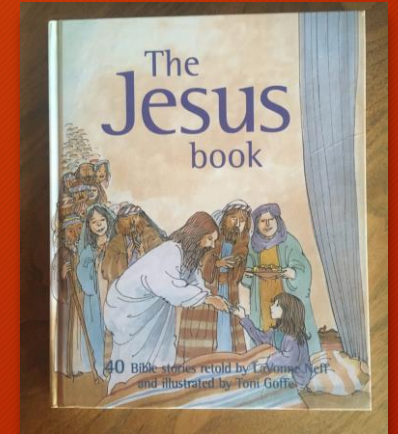

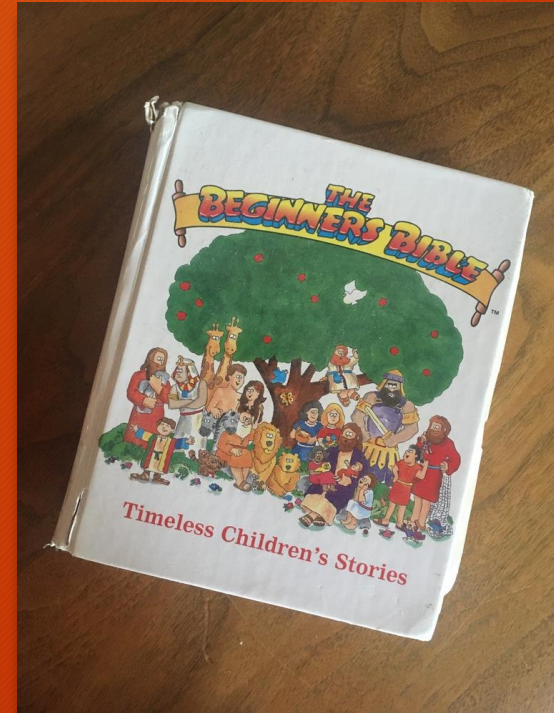

Books

There are 50 many books! We love books!

We look at books while
our friends finish snack.

Bible Story

We listen to a story about Jesus and talk about how God wants us to live with love in our hearts.

Letter of the Week

Some days, we color a paper with the letter of the week.

Free Choice Center Time

We get to pick whatever we want to do today.

There is something for everyone.
Artists, actors, builders and scientists.

Free Choice Center Time

Blocks are ready! New
puzzles are out!

We find new toys every
time we come to school!

Role Play

In the House Corner, we can dress up and be a firefighter, office worker, cook or construction worker.

Art Center

Everything we need to make art is ready for us every day!

Art Center - the easel

New colors of paint are at the easel.

It has three sides so that we can paint a picture anytime we want. Everyone gets a turn.

The Discovery Table (Science Center)

Here is where we find seeds and bugs and acorns and magnets and rocks. You have to check every day, because there is always a surprise at this table.

The Sensory Table

At first, we found water to play in. We poured and measured and learned about water. Then, one day, we found sand, and another time there were beans in there. It keeps changing!

Math Center

We work on numbers and counting at the Math Center.

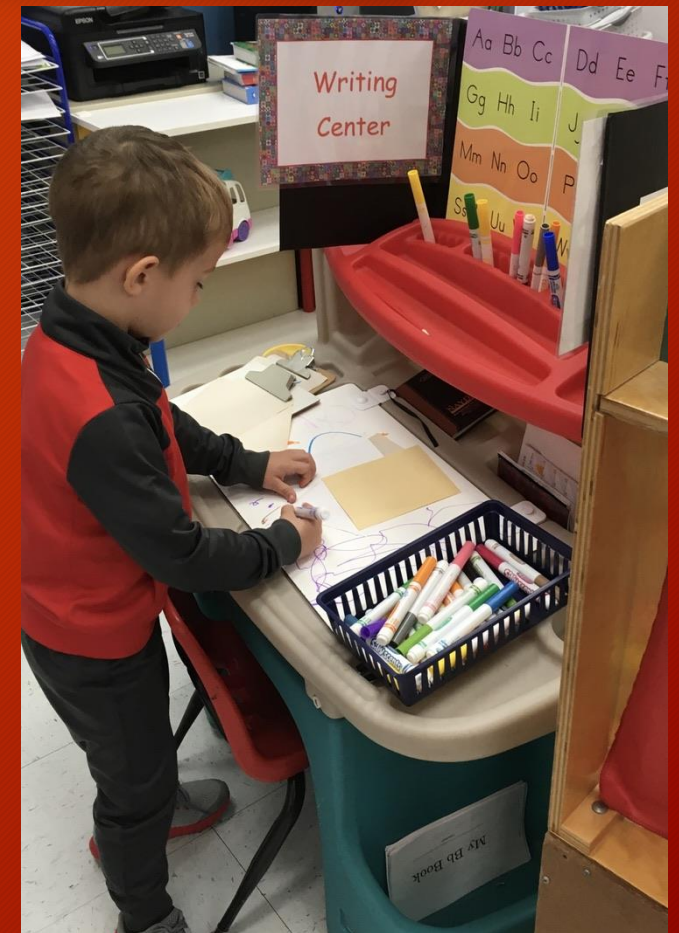

Blocks

We work together to build stuff. We always help each other clean up too!

Literacy Center

We can learn about letters and practice writing at the Writing Table.

Clean-up Time and Circle Time

We clean up our toys.
Then we get back
together for our last
circle time.

We'll sing or listen to a
story and then it is time
to go home.

Come and Visit!

- Learn more about First Friends Preschool when you and your child come to see the classroom and meet the teachers. We welcome visitors anytime.
- Call 630-739-3010
- For a registration form, contact us at:
- www.firstfriendspreschool.info or
