

At The Learning Experience®, our mission of making a positive difference in the lives of our children, their families and our community is at the heart of everything we do. Our discovery-based curriculum is developed with the whole child in mind and helps children advance intellectually, socially and cognitively, or as we say at TLE®: Learn, Play and Grow throughout their time with us.

Inside and out, the details of our center were deliberately picked— for the purpose of keeping your children healthy, safe and happy, and giving them the best possible early education experience. As children advance through our program, they will achieve key milestones in every age group to adequately prepare them for academic and social success.

We cannot wait for your child to laugh, smile and learn alongside our beloved curriculum characters who act as coaches that teach important life lessons and skills, and remind children that everyone is unique in their own way. We understand just how important finding the right daycare for your child is, and we look forward to welcoming you and your little learner into our **special place where children are happy to learn, play and grow.**
